

PICCHIANI & BARLACCHI

Shaping metal since 1902

PICCHIANI & BARLACCHI

Tradition, Made in Italy, Quality imprinted on metal

Over 110 years have passed since the foundation of Picchiani & Barlacchi in 1902: over one century of culture and art are crystalized in our artistic and commemorative medals, crests, trophies, fashion accessories and many other objects, manufactured with mastery. They remind us of unforgettable events at local, national and international level.

Our origins are profoundly eradicated in Florence's cultural and artistic milieu and our medals can prove it: Picchiani & Barlacchi's archive comprehends over 400.000 dies, imprinting on metal our national and international history from early 20th century up until today.

We manufacture prestige objects in a solely independent way, without delegating any phase of production neither employing product of foreign origin, **letting Made in Italy grow stronger and flourish.**

Gazing at the future, as my ancestors did before me and as we are also doing today together with my mother and my aunt, we are carrying on our *"family narrative"* of constant pursue of quality and excellency.

Since over one century, we have been welcoming every order with the same care and enthusiasm, designing it together with the client and personalizing it according to his own tastes and requirements. We do not only shape metal, we care for every detail and carefully create immortal pieces of art, apt at celebrating the importance of a certain event and the client's reputation.

WHY CHOOSING A TROPHY TODAY?

The trophy is the symbol par excellence of **business success** and of a **goal achieved by your company**.

By choosing a Picchiani & Barlacchi's trophy, you are entrusting **master artists who have been shaping and casting metal objects into unique and refined works for over 110 years**. We have at disposal highly skilled artists, internationally recognized sculptors as well as the best Florence engravers, printers and artisans with solid technical heritage.

Thanks to our expertise, **you have the assurance that you will gift a time-lasting object** which is an adequate work recognition and a suitable gratification for a reached goal.

THE PICCHIANI & BARLACCHI METHOD

Picchiani & Barlacchi's method requires several production phases.

The journey begins with a **product's sketch**, which has been created strictly for the client's own use and is protected by copyright.

From this, the artist will produce a plaster model, and then by casting, will get the prototype. Before starting the production, our artisans will hand retouch the model to correct imperfections and refresh the details.

Each phase will be supervised carefully until the conclusion of the production. The trophies **will undergo a meticulous quality check and will be selected** in order to be impeccable for shipment or pick up.
